### Motor metacognition

The diagram for Motor metacognition shows a 3D coordinate system with a vertical 'Post' (posture) axis, a horizontal 'Ball' axis, and a 'Target' axis. A yellow eye icon and a brain icon are present. Below the diagram are three horizontal bars with orange, yellow, and green segments, and a photo of a woman wearing a graduation cap.

### Faces

The diagram for Faces shows three photos of people's faces (two women and one man) arranged in a grid. Below the photos are three horizontal bars with orange, yellow, and green segments, and a photo of a man holding a pink object.

### Agency

The diagram for Agency shows a hand icon with a curved arrow labeled  $\Delta t$  indicating a time delay. To the right is a 3D coordinate system with a vertical 'Post' axis, a horizontal 'Ball' axis, and a 'Target' axis. Below the diagram are three horizontal bars with orange, yellow, and green segments, and a photo of a woman wearing a graduation cap.
