Core

Motor metacognition

The diagram for 'Motor metacognition' includes a 3D schematic of a ball on a platform with a 'Post' and a 'Target'. It features a yellow eye icon, a blue circle with a person walking, a brain icon with a small device, and a vertical stack of four progress bars (orange, yellow, green, white) next to a photo of a woman wearing a graduation cap.

Faces

The 'Faces' project diagram shows three photos of people's faces, three line-drawn faces, and a photo of a man holding a pink object. A single progress bar (orange, yellow, green, white) is located at the bottom left.

Agency

The 'Agency' project diagram features a hand icon with a  $\Delta t$  label, a 3D ball-and-post schematic, a photo of a woman, and a photo of a woman wearing a graduation cap. Each of these four elements is accompanied by a progress bar (orange, yellow, green, white).

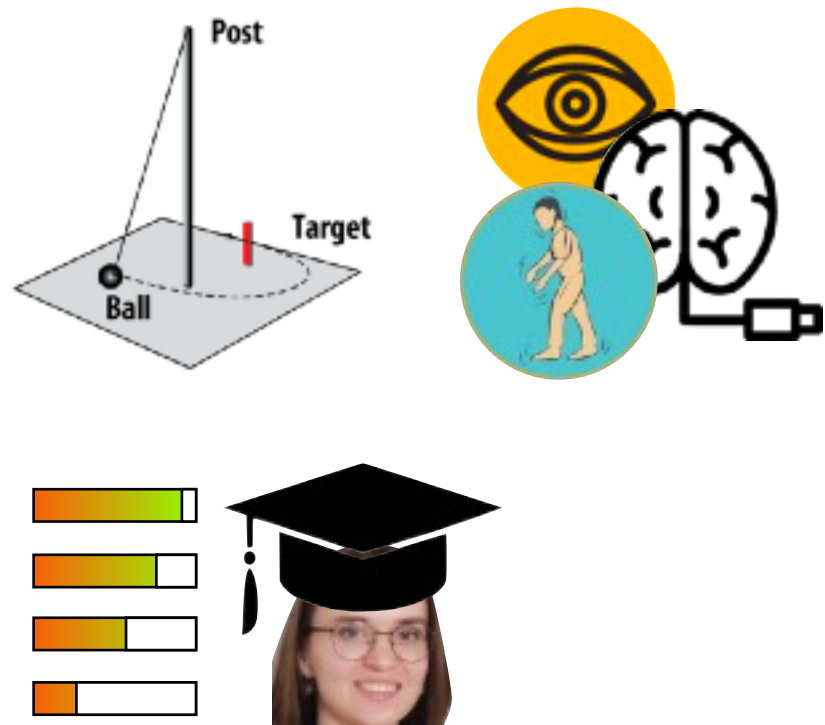

Spin-offs

Metacognition in TS

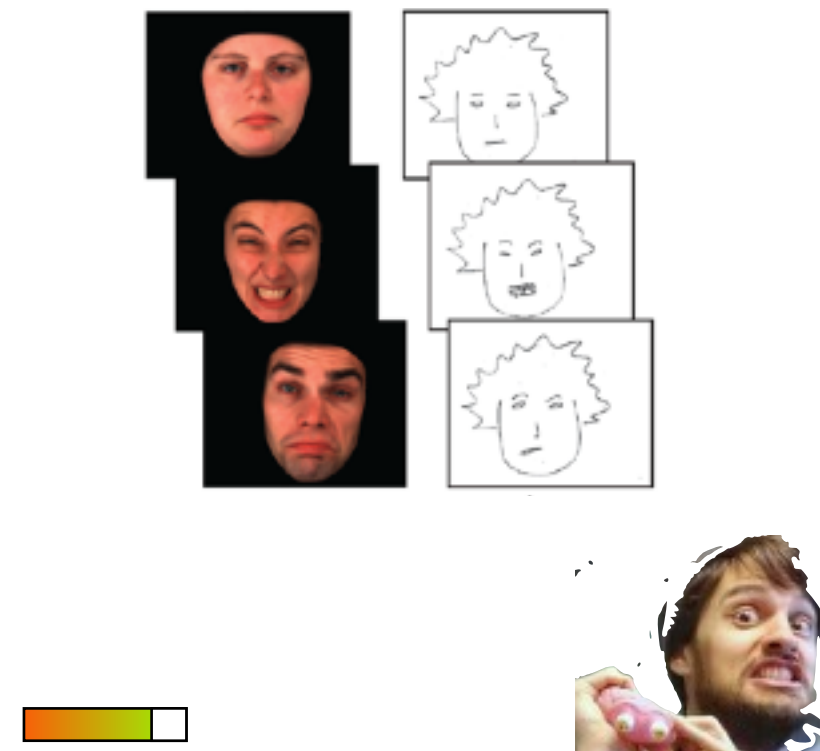

The 'Metacognition in TS' project diagram includes a photo of an older man, a blue hand icon with a lightning bolt, a yellow eye icon, a photo of a woman wearing a graduation cap, and a single progress bar (orange, yellow, green, white) at the bottom left.
